TECHNICAL SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript (ES6+), Vue.js, TailwindCSS, CSS3, HTML5

Back-End: Node.js, REST APIs, GraphQL

Database: PostgreSQL

AI & LLMs: Claude Code, LLM-assisted development, AI workflows, prompt engineering

State & Data: Redux, Zustand, React Query, Apollo Client

Testing: Jest, React Testing Library, Playwright

Tools & DevOps: Git, GitLab CI/CD, Docker, Postman, Vercel, Render

Database & Services: PostgreSQL, Firebase, Supabase, Cloudflare

EDUCATION

Bachelor's Degree in Internet Systems

Federal Institute of Mato Grosso do Sul (IFMS)

PROFESSIONAL EXPERIENCE

Front-End Developer

Grupo Imagetech | Mar 2024 – Present

- Developed and maintained applications using Vue.js, GraphQL, and Apollo Client, focusing on performance and user experience.
- Integrated reusable components and ensured visual consistency based on the design system.
- Collaborated with back-end and infrastructure teams in a Docker and GitLab CI/CD environment.

UI/UX Analyst

Cast Group | Mar 2022 – Feb 2024

- Planned and prototyped interfaces in Figma, applying usability heuristics and responsive design.
- Created interaction flows, design systems, and interface guidelines.

Front-End Developer

PSG Tecnologia Aplicada | Mar 2021 – Apr 2022

- Built web interfaces using React and Next.js, integrating REST and GraphQL APIs.
- Contributed to front-end refactoring to improve accessibility and performance.

Front-End Developer

State Department of Health – Telessaúde MS | 2019 – 2021

- Designed and maintained institutional portals and internal systems.
 - Developed responsive interfaces using HTML, CSS, and JavaScript.
-
